The Secretariats of the Food and Agriculture Organization of the United Nations (FAO) and the International Atomic Energy Agency (IAEA) (hereinafter referred to as the “Sponsoring Organizations”) present their compliments to the Sponsoring Organizations’ Member States and have the honour to draw their attention to the **FAO/IAEA International Symposium on Sustainable Animal Production and Health — Current Status and Way Forward** (hereinafter referred to as “event”) to be held at the IAEA’s Headquarters in Vienna, Austria, from **22 to 26 June 2020**.

The purpose of the event is to provide information and to share knowledge on modern and novel technologies in animal production and health and their application to support sustainable livestock production systems.

The event will be held in English.

Sponsoring Organizations’ Member States are invited to disseminate the attached Announcement and Call for Papers to the target audience for the event and to designate participants using Form A. Member States are strongly encouraged to identify suitable women participants.

The Sponsoring Organizations are generally not in a position to bear the travel and other costs of participants in the event. The Sponsoring Organizations have, however, limited funds at their disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the Sponsoring Organizations’ view, the participant will make an important contribution to the event.

Applications for financial support using Form C, as well as submissions of papers using Form B, can only be considered if received by the deadlines indicated in Section N of the Announcement and Call for Papers.

It should be noted that compensation is not payable by the Sponsoring Organizations for any damage to or loss of personal property. The Sponsoring Organizations also do not provide health insurance coverage for participants in events. Arrangements for private insurance coverage on an individual basis should therefore be made. The Sponsoring Organizations will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the Sponsoring Organizations.

The Secretariats of the Sponsoring Organizations avail themselves of this opportunity to assure the Sponsoring Organizations' Member States of their highest consideration.

International Symposium on Sustainable Animal Production and Health — Current Status and Way Forward

**IAEA Headquarters
Vienna, Austria**

22–26 June 2020

Ref. No.: IAEA-CN-281/EVT1901973

Announcement and Call for Papers

A. Background

The International Symposium on Sustainable Animal Production and Health — Current Status and Way Forward will draw on lessons learned and current best practices to provide a roadmap for the sustainable improvement of animal production whilst protecting the environment. The focus of the symposium will be on the contributions and impact of nuclear technologies and applications.

B. Objectives

The purpose of the symposium is

- To provide information and share knowledge on modern and novel technologies in animal production and health, and their application to support sustainable livestock production systems.
- To discuss the constraints, opportunities and advantages for the effective transfer of nuclear and nuclear derived/related technologies.
- To identify capacity and research needs and to address gaps and new opportunities for transferring technologies and building capacities for ameliorating or solving factors that are limiting livestock productivity and causing animal diseases, particularly, but not exclusively, in developing countries.

C. Format and Topics

The symposium will cover recent developments in technologies applied to animal production and health. The IAEA welcomes both academic and practice-based contributions related to the following topical areas:

- The use and application of atomic, nuclear, and nuclear derived/related technologies in animal nutrition, reproduction, breeding and health.
- Feed resources and feeding strategies under grazing and cut-and-carry production systems in developing countries: what is being done and mechanisms for sustained improved productivity.
- Assisted reproductive technologies for enhanced fertility and offspring with greater productive indexes.
- Radiation hybrid mapping and gene-marker selection in animal characterization and breeding programmes: what do we know and what is missing in developing countries.
- Early and rapid animal disease diagnostic tests in national and decentralized laboratories: staff proficiency, preparedness, emergency response to outbreaks, quality control and quality assurance, international standards (ISO 17025).
- Emerging and re-emerging transboundary and zoonotic animal diseases: threats to food security, public health and international trade.
- The FAO/IAEA Veterinary Diagnostic Laboratory (VETLAB) Network: its role in capacity building, transfer of technology, and sharing of knowledge and experience.
- Irradiated vaccines: new approaches to inactivate or weaken animal pathogens for developing vaccines against animal and zoonotic diseases.
- Stable isotope tracing: new approaches to trace and monitor migratory and transposed animals and their role in the introduction of emerging and re-emerging transboundary animal and zoonotic diseases

The symposium will be held in English. The programme will comprise keynote addresses, plenary presentations from invited speakers, satellite meetings on selected topics, and group discussions.

D. Target Audience

The organizers of the symposium welcome scientists, academics, research managers, laboratory personnel, policy-makers from governmental and non-governmental organizations, private sector entities, and donor agencies from national and international organizations, foundations and trusts.

E. Expected Results

- Better understanding of animal production constraints and the role of nuclear, and nuclear derived/related techniques as tools for ameliorating the current problems affecting livestock production, farmers' livelihoods and food security.
- Links between the IAEA Secretariat and Member States on animal production and health will be strengthened.
- The IAEA will update its requirements and focus for research and extension on animal production and health for solving Member States' needs.
- Participants will enhance their knowledge on modern technologies and farm practices for improving livestock production and health in their own countries.
- Proceedings of the symposium will be published and made available to the scientific community.

F. Synopses, Presentations and Proceedings

All participants are welcome and encouraged to submit their research results in the format of a synopsis on one of the topics listed under Section C. The paper should give enough information on its contents to enable the Programme Committee to conduct a technical evaluation for its acceptance. Accepted synopses will be presented as posters during the poster sessions to promote greater interactions among symposium participants. The electronic compilation of accepted synopses will be reproduced in an unedited form and made available free of charge on the symposium web page and IAEA Conferences and Meetings App.

Invited speakers should submit extended papers related to their presentations.

F.1 Submission of Synopsis

The synopsis can be one to maximum three printed A4 pages, in single space, including tables, figures and references. More than one synopsis per participant is allowed.

Synopses must be prepared in MS Word or similar software and sent to the official symposium email address (APHSymposium2020@iaea.org). No other submission route will be accepted. Specifications for the layout will be available on the symposium web page. The Programme Committee will keep the authors informed regarding receipt and acceptance/rejection status of the synopses.

In addition, all participants must submit the Participation Form (Form A) and the Form for Submission of a Paper (Form B) to their appropriate governmental authority (see Section G) for transmission to the IAEA. These forms must be received by the IAEA no later than 30 September 2019.

IMPORTANT: The Programme Committee will consider submitted synopses only if these two forms have been received by the IAEA through the established official channels (see Section G).

F.2 Acceptance of Synopses

The Secretariat reserves the right to exclude synopses that do not comply with its technical or scientific quality standards and/or that do not apply to one of the topics in Section C above.

Authors will be informed by **31 March 2020** as to whether their synopses have been accepted.

F.3 Proceedings

It is intended that some of the synopses and speaker presentations at the symposium will form the basis of a book to be published as a peer reviewed publication by an external publisher and that all participants will receive a free copy of this book. Participants with contributions selected for publication in the book will receive timely instructions for the preparation and submission of their papers.

G. Participation and Registration

All persons wishing to participate in the symposium must be designated by an IAEA Member State or be members of organizations that have been invited to attend. The list of invited organizations can be requested from the Symposium Secretariat (see Section O).

In order to be designated by an IAEA Member State, participants are requested to send the following forms (as applicable) to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority):

- Participation Form (Form A): participation only; no deadline if only Form A is submitted;
- Form for Submission of a Paper (Form B): participants submitting a paper contribution must send the completed and signed Form B together with Form A to their competent national authority for transmission to the IAEA (Official.Mail@iaea.org) by the given deadline; and
- Grant Application Form (Form C): participants requesting financial support from the IAEA, must complete Form C and send it together with Form A and Form B to the competent national authority for transmission to the IAEA (Official.Mail@iaea.org) by the given deadline. Form C must be stamped and signed by the competent national authority.

Participants who are members of an organization invited to attend are requested to send the above form(s) through their organization to the IAEA (Official.Mail@iaea.org).

In addition, participants are requested to pre-register online through the symposium website <https://www.iaea.org/events/APHS2020>

Participants who register in accordance with the above procedure will receive from the IAEA further information approximately three months before the opening of the symposium.

H. Expenditures and Grants

No registration fee will be charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the symposium. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Such assistance may be offered upon specific request to normally one participant per country provided that, in the IAEA's view, the participant on whose behalf assistance is requested will make an important contribution to the symposium.

If Governments wish to apply for a grant on behalf of one of their specialists, the Participation Form (Form A), Form for Submission of a Paper (Form B) and the Grant Application Form (Form C) stamped and signed by the Government, must reach the IAEA (Official.Mail@iaea.org) by **30 September 2019**.

Applications that do not comply with the above conditions cannot be considered.

Approved grants will be issued in the form of a lump sum payment that usually **covers only part of the cost of attendance**.

I. Distribution of Documents

A preliminary programme will be posted on the IAEA symposium web page (see Section P) as soon as possible. The final programme and the electronic compilation of synopses will be available free of charge upon registration at the symposium.

J. Exhibitions

A limited amount of space will be available for organizations and commercial vendors' displays/exhibits during the conference. Interested parties should contact the Scientific Secretariat by email at: APHSymposium2020@iaea.org by **31 January 2020**.

K. Working Language

The working language of the conference will be English. All communications and papers must be sent to the IAEA in English.

L. Venue and Accommodation

The symposium will be held at the IAEA's Headquarters in Vienna, Austria. Participants must make their own travel and accommodation arrangements. Hotels offering a reduced rate for symposium participants will be listed on the symposium web page (see Section P). Please note that the IAEA is not in a position to assist participants with hotel bookings, nor can the IAEA assume responsibility for paying cancellation fees or for re-booking and no shows.

M. Visas

Designated participants who require a visa to enter Austria should submit the necessary application to the nearest diplomatic or consular representative of Austria at least four weeks before they travel to Austria. Since Austria is a Schengen State, persons requiring a visa will have to apply for a Schengen visa. In States where Austria has no diplomatic mission, visas can be obtained from the consular authority of a Schengen Partner State representing Austria in the country in question.

N. Key Deadlines

Submission of synopses (including submission of Forms A and B through a competent national authority)	30 September 2019
Submission of grant application (Forms A and C through a competent national authority)	30 September 2019
Notification of acceptance of synopses	31 March 2020
Registration only (no paper submission, no grant request)	No deadline

P. Symposium Web Page

Please visit the following web page regularly for new information regarding this symposium:
<https://www.iaea.org/events/APHS2020>

Q. Greening

To demonstrate its commitment to sustainability, the IAEA will organize this symposium as a 'green meeting' according to the guidelines of the Austrian Ecolabel.

There will be a focus on the areas of paper smart documentation, waste reduction and recycling, and environmentally friendly catering.
